

MAYOR'S REPORT  
JULY 2015

We have quite a bit of activity during the month of July in the City of Willoughby Hills. One of my favorites is our "Safety Town" which gives children entering kindergarten an opportunity to learn the fundamentals of being safe. This encompasses safety at school, riding the bus, riding a bike, around water, in the parks and on the street. It teaches them about the importance of stop signs and not talking to strangers. Our Police and Recreation Departments do a great job in providing this education to our youngsters. Approximately thirty students will graduate from the program this year.

Dunkin' Donuts continues to work on the construction of their newest site on Bishop Road. We anticipate an opening date in the first or second week of September. We hope this will serve to bring other businesses to the west end of our town, including the Shoppes of Willoughby Hills.

Shred Day was a huge success. It provided our residents an opportunity to get rid of papers, as well as the City Hall annual record disposal. This is an annual event that we look forward to providing to our residents for years to come.

Our Fire Department accepted a generous donation from University Hospitals of a Lukas CPR Chest Compression System. It will serve to provide constant chest compressions during CPR. It will be a valuable resource to our Fire Department for lifesaving and a real asset to the residents of Willoughby Hills. Special thanks to UH for this donation!

Our second free summer concert sponsored by Fall Corn Fest, Inc. featured the delightful music of "Light of 2 Moons." This local group provided great entertainment with many songs you could sing along to while enjoying a summer evening in Willoughby Hills. Willoughby Hills Boy Scout Troop 562 provided hotdogs and chips and was able to earn funds for future scouting activities. Thanks to all who supported this great event.

Our last free summer concert sponsored by Fall Corn Fest, Inc. is set for Wednesday, August 19 and features the country music of "Tommy Steele Band" and the BBQ by "Stewart's Smokin' BBQ." Plan to attend this great event – rain or shine!!

In closing, please know that my office is working on our City Newsletter due out in August. I look forward to providing additional information for our residents in this publication.
