RLB+A Contact: Pietro A. DiFranco, P.E.

Dear Mayor Weger:

We are pleased to submit this proposal for your consideration on the above-captioned project. The following is our understanding of the project scope, and estimate of professional fees:

PROJECT DESCRIPTION

This agreement is for the bidding and construction administration of the Dodd Rd Embankment Protection project. The project involves the construction of a drilled shaft retaining wall between Dodd Road and the Chagrin River, approximately 500 feet northeast of Milann Drive.

Previously, Bowen was contracted to oversee the work of KS Associates and acted as the city’s representative during the retaining wall analysis and design process. The final construction plans were approved by Bowen on 01/30/19 and the permitting process is currently underway.

On 01/24/19, Willoughby Hills Council made a motion to go for bid. Bidding will start once the permitting process further progresses and construction will start once permitting is complete.

All project costs will be reimbursed from the Lake County Storm Water Management Department.

SCOPE OF SERVICES

- Serve as the authorized representative of the city and supervise the execution of the project work, including resident coordination and meetings as needed.
