

CUSTOMARY HOME OCCUPATION PERMIT APPLICATION

No customary home occupation shall be permitted or carried on unless the customary home occupation complies with all the regulations set forth in section 1157.05. Compliance with these regulations should result in all home occupations being located and conducted in such a manner that their existence is not detectable in any manner from the outside of the dwelling unit.

Home occupations may be reviewed to assure that they are in character with section 1157.05 and will not constitute an objectionable use of the residentially zoned property due to potential noise, increased pedestrian and vehicular traffic, or any other conditions that might interfere with the general welfare of the surrounding residential area. If any undesirable condition interferes with the general welfare of the surrounding residential area, such home occupation may be terminated.
