The Mayor opened by stating that he was going to extend the Council meeting to about hour because he had so many things to do and then went on to say that it is kind of a different day here in Willoughby Hills, because this year alone, we have already sworn in two Full Time Policemen and tonight we are getting prepared to swear-in two more Policemen, something that we haven't done for over a decade, it shows how Willoughby Hills is getting their act together and making things work within the time frame and budget that the City has.

Malecek**Also Present:** Councilman Christopher L. Biro, Councilman David M. Fiebig, President David A. Reichelt, Law Director Thomas G. Lobe, City Engineer Richard Iafelice, Mayor Robert M. Weger**Purpose of the Meeting was to discuss (1) Annual Road Program: Discuss Streets for 2012 – Canterbury Court Cul-De-Sac and Riviera Ridge (2) Additional Engineering Service Updates and any other business.****Meeting convened at 7:07pm*****Order of Business***

1. **Update on Rogers Road** – The road work is mostly complete and ahead of schedule. The road closed on May 7th, 60 days slated for the project, pavement, wall, guard rail, storm sewers, etc all completed. When the rock channel was being installed an edge of the road began coming apart. With a minor change order, a \$5,000 allowance is enough to stabilize the road.
2. Additionally, there is a 2nd slide at the bottom of the Rogers Road hill, on the east side of the river. Not a large area, but big enough to cause the sub grade of the road to crack. A design was prepared using information from the Rogers Road Bridge Design. Lake County Storm Water Management is to fund this repair, \$50,000 Change Order to repair 2nd slide and pavement repair, as well as the catch basin. The contractor will maintain traffic while this is being repaired. Schedule forthcoming for repair.
3. **Update Maple Grove Bridge** – ODOT managing this project. There have been some resident’s complaints; damage to home/property. City is sent weekly updates mostly aligned with safety. 180 days from May to November, for reopen, but not end of the project.

4. **SOM Center Bridge Repair by State of Ohio**
5. Drainage items – Cricket Lane, localized flooding problems, due to storm water sewers on Chardon causing drainage flow from Chardon down Cricket. Drainage ditch closures being halted at this time. Future Committee discussion on ditch enclosures over all.
6. **Flooding from Sayle Farm Properties.** City Engineer lobbied the County Storm Water Management Department for assistance. Challenge to get back to the area. The swale needs to be corrected as well as eliminating the City's easement.
7. **Gatsby Draining Issues**– Councilman Biro inquired about ditches being covered, where as surface water then hits the road and floods the cul-de-sac. Our Service Department schedule to address.
Hunting Trail – Private Street. Residents do not want storm sewer improvement, is aligned with Rockefeller residents
8. FYI – NOACA communicated to cities to review and update clean water plans. Need to review maps and update / modify. For Utilities Committee to review.
9. Lake County Health District – has concerns aligned with WH residents that have not allowed internal plumbing inspections after sewers installed. This is Area B, need required dye test. ~18 residents. Lake County cannot close these out without this compliance. Not sure who will be following up on this?
10. OPWC – submitted packet to County Engineer with 2 pre-applications to complete Maple Grove Road on east and west side of bridge and also with Kirtland to reconstruct Worrell Road.

Additional Business:

***Canterbury Court** – P.O. awarded to Bowen & Associates to do the design

***Rivera Ridge** – Bowen as well

***Valley Brook** – to do overlay, City has received bids, less expensive for regular asphalt company repair instead of the Service Department

*Two new service trucks in, getting outfitted

Public Portion

The following people came forth with questions/comments: Frank Cihula has pictures of the Rogers Road repair if anyone is interested. Bob Kowalski, inquired to engineer concerned about if we get rain, how it will affect projects? Also voiced concerns about the residents that have not had internal inspections following sewer connections.

Meeting adjourned at 7:53pm

MOTION PASSES

President Reichelt declared that the Three Reading Rule for Resolution No. 2012-7 has been suspended.

MOTION WAS MADE BY COUNCILMAN BIRO, seconded by Councilman Malecek to adopt Resolution No. 2012-7.

Councilman Malecek request a moment to make the following statement: This is a project that is a long way off. There were some statements that were made claiming that Council was endorsing plans, or that type of thing, that is not what really is happening here; there are no current plans that are in front of any Commissions, that are in front of any Boards of the city to have this done, this is a conceptual idea, something that has the potential to bring tremendous historical value, tremendous notoriety to the City and potentially put us on the map in the architectural world where we will have a major landmark potentially down the road. That is all this is, as is any Resolution of Council; it is merely an expression of that sentiment.

President Reichelt stated that there is nothing being given by the City, there are no-out-of-pocket costs for this, there is nothing, just strictly a sentiment of support.

MOTION WAS MADE BY COUNCILMAN MALECEK, seconded by Councilman Fiebig to adopt Resolution No. 2012-8.

Roll Call: 6 AYES – unanimous

MOTION PASSES

The Law Director stated that he would like to comment on this Resolution for there are some misconceptions in place regarding the use of a Then and Now Certificate. There are matters that routinely come up and they are for audit compliance. The City hasn't done Then and Now Certificates in the past; it should be done this way and it is going to happen and every once in a while, it will happen. This is a matter of house cleaning in the Finance Department that is what this really is. The Auditors want these types of things, it is expected and it happens with all governmental bodies and we need compliance and we need these resolutions from Council so that the City doesn't receive a noncompliance or a recommendation from the Auditors. It is not a strike that we are doing this; in fact it is a compliment that we are doing this. We are just cleaning out the auditing of the financial corners that should be done and this is how you do it, in case something does "slip through the nets, this is how you correct it along the way and it shouldn't be caught by the Auditors. The Law Director is very proud that Finance Director Brichacek is doing this. Again, you will get these every once in a while, it doesn't mean that we are doing things wrong, it just means that we are doing more things right.

President Reichelt declared that Resolution No. 2012-8 has been adopted.

NEW BUSINESS

MOTION WAS MADE BY COUNCILMAN GERMANO, seconded by Councilwomen Fellows to adjourn into Executive Session for Personnel Relations to appoint a Public Official and Compensation of said Official; inviting all Members of Council, the Law Director and the Mayor. The Executive Session is to follow "For the Good of the Order" with the Finance Director and City Engineer then being excused from the Regular Council Meeting.

Roll Call: 6 AYES – unanimous

MOTION PASSES

President Reichelt declared that Motion has passed for Council to adjourn into Executive Session following "For the Good of The Order" for the purpose of personnel discussion and the appointment of a public official as outlined by the Law Director previously; this would include all of Council, the Law Director and the Mayor and excusing the Finance Director and the City Engineer, with the possibility of taking action upon return.

FOR THE GOOD OF THE ORDER
