

Willoughby Hills Service Department

2014 Annual Report

**2015 Plan for Roadwork/Storm Water Projects
Equipment & Vehicle Replacement**

Submitted by Mark Grubiss Service Superintendent

February 27, 2015

February 27, 2015

Mayor Weger:

You have asked that I prepare the Annual Report for the Service Department. Please find this document attached.

As you know, I assumed the responsibilities of the Service Department in the capacity as Road Superintendent on November 3, 2014. I was hired to replace Nate Catania, who had been with the City since March 26, 1999. Much of the report, therefore, represents work done by the previous Superintendent, but I can report on many of the items that I took on when I was hired.

WORK ORDER LOG:

This report contains our "Work Order Log" which identifies work orders that were called in to the Service Department for resolution. In 2014, there are 424 on the Work Order Log. These represent many resident calls, as well as calls for work needed on the City Hall and Community Center grounds. When I first took over, many of these work orders were not put on the spreadsheet, but were simply loose forms in Nate's former office. I ensured that all of the work orders were put on the spreadsheet for easy access in the event that the resident/City Hall worker would call back for a status. Sharen Michney in our Finance Department put it on a shared drive so that this log can be accessed in the Service Department, Building Department, Finance Department and Mayor's Office since the calls normally are handled by all of those departments. This makes it nice for the resident being able to get a quick answer, rather than leaving messages or not getting called back. Once the spreadsheet contained all of the loose work order sheets, I was able to review it and follow up with many of those items that we were not sure if they were resolved or closed. This meant visiting many of the locations or following up with residents. I think the Work Order Log is now in good shape and is a great reference tool. It brings a true appreciation to the variety of issues and concerns that we handle on a daily basis.

CLEAN UP:

Another huge undertaking upon my arrival was an overall cleanup to the Service Department area and assessment of vehicles and equipment. I, along with the help of the Service Department employees, cleaned up the back lot, including ridding out the storage barns on the property. There was equipment that was broken, rusty and not in working order. I made an inventory of these items and discussed them with you and my long-term plan to replace or simply dispose of some of these items. I think we are at a good point now where we know what we have and what we need.

Please let me know if you have any other specific questions when you read my report.
Thank you.

Mark Grubiss, Road Superintendent

RESIDENT
REQUEST LOG

2014 WORK ORDERS
(RESIDENTS GROUNDS)

Re : Road Work Recommendation

The following street inventory highlights the roads I would recommend we work on this over the next 5 years.

CONCRETE

1. Full depth concrete repairs on all concrete streets.
2. Replace Glen Kyle cull de sac.
3. Replace section on Gatsby at Kourtney intersection.
4. Replace the concrete around 6 catch basins on Curtis wright parkway.

ASPHALT

1. Red fox pass
2. Route 91 through the whole length from route 90 bridge to white road. (looks like 2016)
3. Rockefeller from Rt. 6 to white road
4. Worrell road resurface also full depth repairs this would be split with Kirtland.
5. Rockefeller road from eddy road to route 6.
6. Pleasant valley road from bridge to route 6 (2015)
7. Crack seal all roads throughout the city
8. Eddy road from 271 to Rockefeller. (2015)
9. Somrack drive needs to be paved rough shape. (paved last in 1994)
10. Legend lane
11. Stark drive
12. Bates lane.
13. Traillard drive.
14. Jennie lane
15. There are also numerous trenches throughout the city that need to be repaired that are failing. In my mind from improper compaction to the subgrade which is causing a lot of headaches for motorists. This is from the c.t days

DRAINAGE – Propose to Lake County Storm Water for funding.

1. Dodd Rd. at cage drainage, already proposed to L.C.S.W.D. – 2014
2. Roadside ditching, drive culverts and restoration. - 2015
3. Erich Dr. replace storm sewer FUTURE
4. Oak, Trabar, Orchard replace storm sewer II
5. River north replace storm sewer II
6. River south replace storm sewer and curb and gutter II
7. Eagle Rd. hill drainage, curb and gutter II
8. Stark Dr. and Chardon replace and add storm sewer II
9. Worrel Rd. hill replace storm sewer, curb and gutter

SEWER UPDATE:

With Nate Catania's leaving, we were obligated by our City of Euclid Sewer Agreement to contract a "Sewer Operator of Record" with a Class III license. We contracted Walter Vankirk to fulfill this requirement. The City entered in to an Agreement with Mr. Vankirk on October 20, 2014, and it took effect on October 27, 2014. It is in effect through October 27, 2015, and is automatically renewed annually thereafter. He is paid \$350 per month. He will supervise the work of Assistant Foreman Ken Richards who is responsible for sewer maintenance and pump stations. He tours the pump stations with Ken on a regular basis for compliance.

Sewer records were updated prior to Walter Vankirk assuming his role. All of the pump station reports were filed in the appropriate book for the particular pump station. Ken Richards has been very diligent in ensuring that all pump stations are maintained regularly. In addition, Ken maintains a mapping of all sewer locations and cleans them as required and will most likely be ahead of the County's recommended plan as to the percentage of the City that should be cleaned at a given time. All records pertaining to sewer and pump stations are maintained in the Service/Building Department area.

Subject: Re: Freightliner 108 SD Chassis - ODOT 023-14 Co-op pricing

Mark,
I just checked with Henderson and the equipment install is almost finished. We could probably deliver a completed package in 30 days. I'll get you the specs and cost on the equipment tomorrow. If I were to order a chassis right now your looking at June delivery. I do have other models on ground for immediate delivery as well. Feel free to call my cell 440-381-1086.

Greg
If I was to order this truck today. What would the delivery date be. I will need to still go through council . just need to know if they ask me tonight.

Best regards mark

Subject: Freightliner 108 SD Chassis - ODOT 023-14 Co-op pricing

Good Morning Mark,
Please review attached quote. This chassis is already built and slated to get equipment at Henderson Truck Equipment. This cuts your build time in half! Please call me once you've had time to review.
Thanks

2015 wish list

Roadwork

1. Worrell Road
2. Concrete road repair program
3. Pavement markings have to be done in 2015.
4. State may be doing Rt 91 in 2016.

Service Equipment

1. 1 Plow Truck
2. Road Foremans tool truck one ton 4x4 with 18" wide boxes
3. 1 ton work dump truck one ton dump
4. 4 new garage doors for the mechanics shop

Sanitary Sewer Equipment

1. 3/4 ton pickup, Superintendent
2. New electrical control panels at Meadowbrook pump station.
3. West side sewer overflow tank.
4. Stark discharge pipes need replaced. This is the force main

Storm water

1. Continue small storm water projects.

Buildings and grounds

Drainage, curbs and paving needed at City Hall.

Campbell park needs a paved parking lot.

Service truck garage roof leaking again.

need to remove one of the exhaust fans two of them are to many!!! and ;
would also like to raise the salt bins. With "A" frame type trusses and ext

GOALS FOR 2015

Goals for 2015

1. Go around and repair all damage done from snow plows and snow removal.
 2. Check all roads for potholes also make repairs to them as soon as weather permits.
 3. Pave 5 aprons from storm sewer work. Replace (1) concrete apron from sanitary main installation on trabar.
 4. Crack seal as many roads throughout this city. This should help the humps and bumps but may not stop them.
 5. Work on the tree trimming throughout the city this work will be done (2) weeks at a time.
 6. work on ditching throughout the city this work will be done (2) weeks at a time.
 7. repair all sink holes ,road crossings that are bad throught the city (Rogers rd,White rd and bishop.
 8. I would like to remove all unused and broken equipment taking up space out back.
 9. Rework the back yard to move things so that we meet the MS4 requirements. (no materials stored by the cric the creak
 10. Leaf schedule is made. I would like to have it implamented this year 2015? to send out to the residents.
- a copie is attached for your viewing.

DECL LAST WEEK OF LEAF P/U

We will do our best to pick up the leaves on the dates shown however equipment, manpower and weather may result in delays. If we pick up your leaves before the scheduled date, we will return to your area on the next scheduled date.

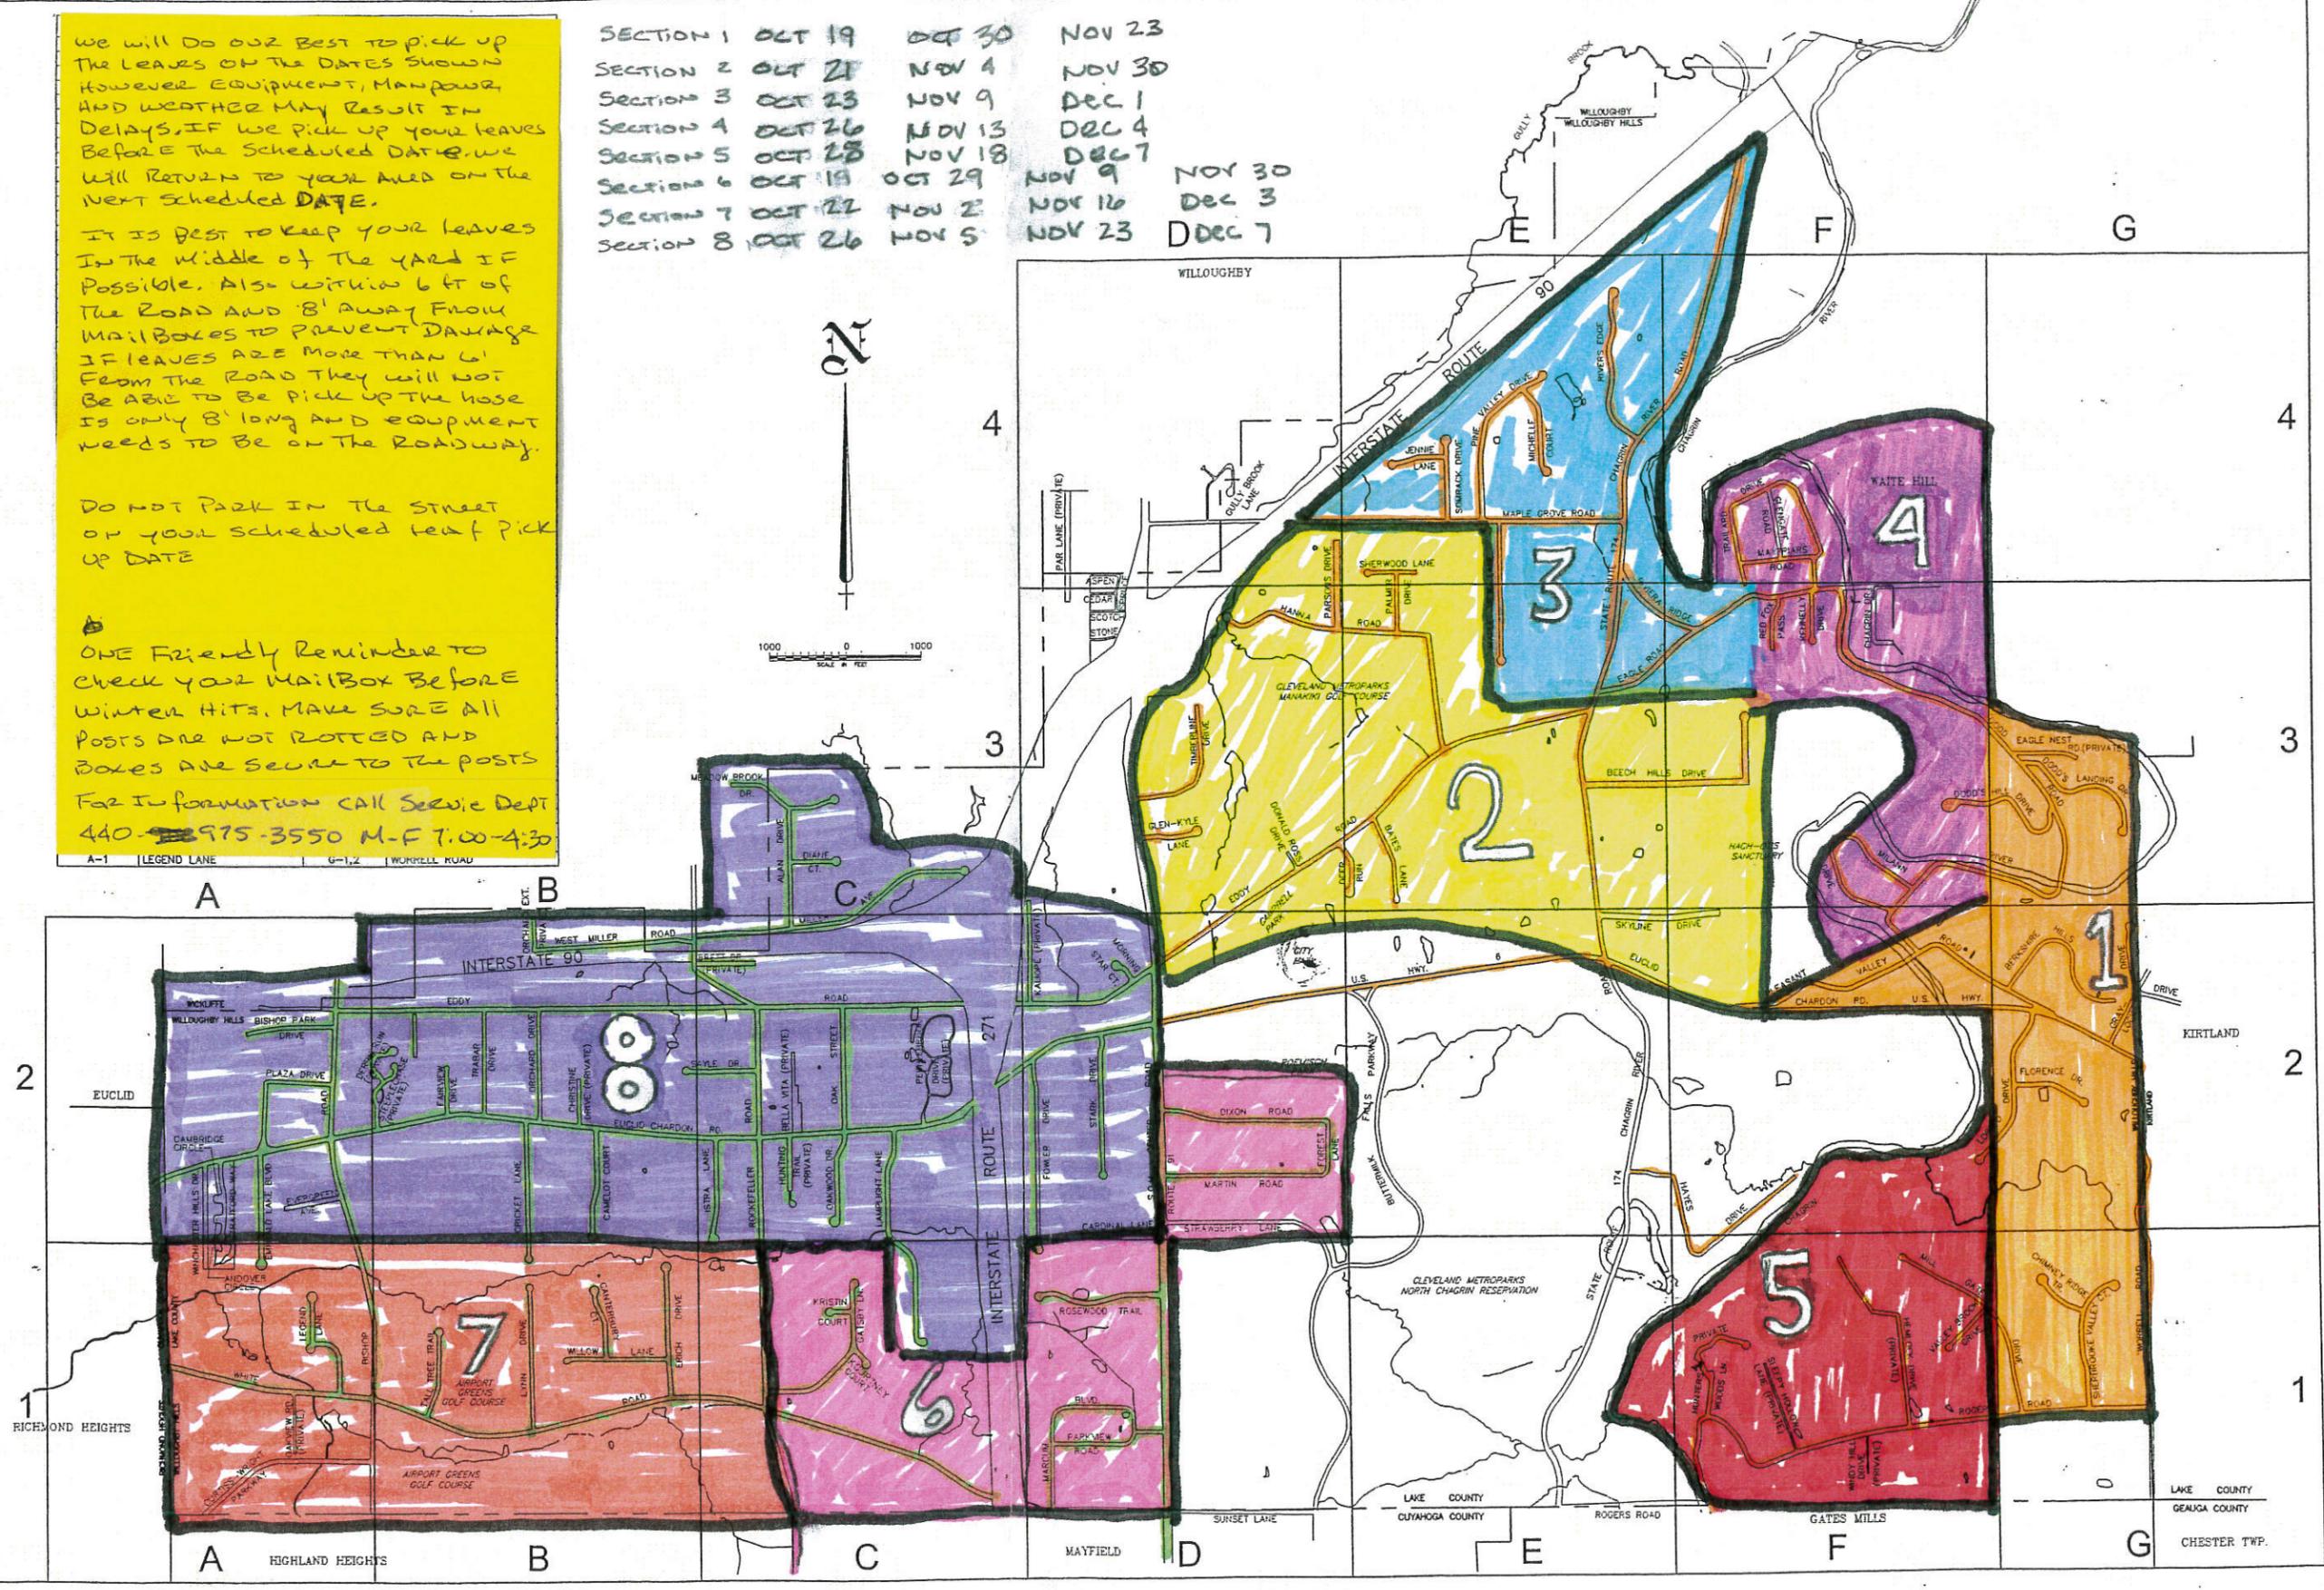

It is best to keep your leaves in the middle of the yard if possible. Also within 6 ft of the road and 8' away from mailboxes to prevent damage. If leaves are more than 6' from the road they will not be able to be picked up. The hose is only 8' long and equipment needs to be on the roadway.

Do not park in the street or your scheduled leaf pick up date.

ONE FRIENDLY REMINDER TO CHECK YOUR MAILBOX BEFORE WINTER HITS. MAKE SURE ALL POSTS ARE NOT ROTTED AND BOXES ARE SECURE TO THE POSTS.
