

October 2013

Here is the current Sewer Rate Schedule. Note that the amount appearing on a resident's bill is the Combined WH Rate. The City rate is set by Council through 2018, the Euclid portion is subject to revision by Euclid.

The total sewer rate is comprised of two amounts. They are:

- Euclid – The amount charged to the City of WH per thousand cubic feet (mcf) for processing the City's waste water. The City of WH does not have its own wastewater treatment facility. As such we contract with the City of Euclid for this service.
- WH Operating Rate – This represents the City's cost of constructing and maintaining the sewer lines/system, including the pump stations, in the City (in other words, mainly the work performed by the Service Department). This rate includes the debt service to retire debt issued in the past for the construction of new or replacement of existing sewer lines in the City.

<b>Sewer Rate Schedule</b>			
<b>Year</b>	<b>Combined WH Rate</b>	<b>WH Operating Rate</b>	<b>Euclid Total</b>
2011	\$44.67	\$20.51	\$24.16
2012	\$58.64	\$28.26	\$30.38
2013	\$63.64	\$33.26	\$30.38
2014	\$71.64	\$40.26	\$31.38
2015	\$78.64	\$47.26	\$31.38
2016	\$86.64	\$54.26	\$32.38
2017	\$93.21	\$57.76	\$35.45
2018	\$101.20	\$61.26	\$39.94
