RECEIVED  
NOV 21 2007  
CITY OF WILLOUGHBY HILLS

November 2007

Mr. Kenneth A. Lorenz, Mayor  
Willoughby Hills City Hall  
35405 Chardon Road  
Willoughby Hills, OH 44094

Dear Mr. Lorenz:

As a result of the information received at the February 27<sup>th</sup> public workshop, the airport project team and County staff have revisited the original 36 alternatives to find a way to achieve the airport's objective of providing a safer and more efficient facility while minimizing adverse impacts to the surrounding communities.

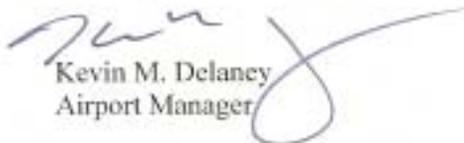

Presentations and discussion of the new proposed alternatives are being planned for local officials, the Airport Advisory Committees, and the public. Dates, locations, and times of the meetings have yet to be determined and will be publicly announced at a later time. One of the airport's goals is to reach a consensus that will benefit and balance the needs of the airport and each of the communities: Willoughby Hills, Richmond Heights, and Highland Heights.

Anyone who is interested in providing comments to the airport may do so, by calling (216) 289-4111; via email at [ccairport@cuyahogacounty.us](mailto:ccairport@cuyahogacounty.us); or by writing to 26300 Curtiss Wright Parkway, Richmond Heights, Ohio, 44143.

We look forward to discussing these additional alternatives with you at the various meetings, however, should you have any questions in the interim, I can be reached at (216) 289-4111.

Thank you for your interest in aviation and the Cuyahoga County Airport.

Sincerely

  
Kevin M. Delaney  
Airport Manager
