

MAYOR'S REPORT
MARCH 2011
By Mayor Robert Weger

With winter winding down, we are helping our residents once again by offering income tax assistance for federal, state and city income tax. AARP will be at the Community Center every Tuesday to assist with federal and state income tax. RITA representatives have scheduled Monday, March 21, 2011 to help our residents with city income tax. The representatives look forward to serving you and hope you will take advantage of their services.

The Independent Performance Audit Task Force is making the final touches on their report and I look forward to receiving it sometime this month. I will review it thoroughly to assess what ideas and recommendations we may consider to streamline the city's practices and procedures. Special thanks to the eleven devoted volunteer residents who dedicated themselves to this project.

In closing, let me remind you of our annual pancake breakfasts during the first three Sundays in March. It is a perfect opportunity to come out and meet with your neighbors and friends, as well as getting youngsters signed up for the city's baseball and softball leagues. Come join us! Spring is just around the corner!
