MEETING NOTICE

Date: Monday, April 14, 2014

Time: 6:30 PM

Place: City Hall
Council Chambers

Topic: Lamplight Lane
Culvert Replacement

Scope: The project consists of:

- Replacing the existing 54-inch diameter twin culvert with a new 9.5' x 4.5' box culvert,
- Adding 36-inch diameter pipes on each side of the new culvert,
- Raising the elevation of the road at the culvert by up to 12 inches,
- Modifying existing drive aprons affected by raising the roadway.

Goal: To safely convey flow within the stream, across Lamplight Lane without overtopping (flooding) the roadway during more frequent storm events (10-year storm), so that safety, service, and other vehicles may access the cul-de-sac.

Contact: Pietro DiFranco, P.E.
City Engineer
P: 216-377-3813
